

Venetian Plaster

Walls of Joy!

Old World Craftsmanship
Contemporary Style

Earthpaint Venetian Plaster is pure Lime Plaster, with Zero Petrochemicals. It smells fresh, resists mold, and is non-flammable. These plasters can last hundreds of years, gaining in beauty as time passes over them. This is one of the most sustainable and beautiful wall surfaces available!

Earthpaint Venetian Plaster is the real thing! Our region's lime is magnificent in it's beauty and imparts sophisticated charm. This is the finish that *Faux painting started from.

*Venetian Plaster is a name mistakenly given to many Faux (fake) finishes which nowadays are mostly Acrylic Paste.
